PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive, scalable Single Page Applications (SPAs) using React.js, JavaScript (ES6+), HTML5, and CSS3, with growing full-stack exposure to Python (FastAPI), Redux Toolkit, Snowflake, Airflow, and CI/CD pipelines. Skilled in developing reusable component-based UI with React Hooks, integrating RESTful APIs and JSON data, and translating UI/UX designs into pixel-perfect, cross-browser compatible web pages. Experienced in Agile/Scrum environments, version control with Git, and issue tracking with JIRA, with a strong focus on writing clean, maintainable, and modular code.

TECHNICAL SKILLS

Core UI: HTML5, CSS3, JavaScript (ES6+), React.js

Backend: Python, FastAPI (REST APIs, CRUD, validation)

State Management: Redux Toolkit, Context API

Styling: Tailwind CSS

Data & Workflow: SQL, Snowflake (querying & data validation), Airflow (DAGs & scheduling)

Build, CI/CD & Version Tools: Webpack, Jenkins CI/CD, Git, Bitbucket

Tools: JIRA, Visual Studio Code, Postman

Concepts: REST API Integration, SPA Architecture, React Hooks, Micro Frontend Architecture, Responsive Design, Data Quality Validation, Agile/Scrum, SDLC

PROFESSIONAL EXPERIENCE

Software Engineer — 2025 – 2026

Tech Mahindra, Chennai | Client: Telefonica

- Developed responsive, component-based UIs using React.js and JavaScript (ES6+), managing state with Redux Toolkit and Context API, and integrating REST APIs for real-time, data-driven dashboards.
- Built basic REST APIs using Python and FastAPI with CRUD operations and validation, and gained hands-on Snowflake experience writing SQL for data extraction and validation.
- Worked with Airflow DAGs for workflow scheduling and Jenkins CI/CD pipelines for build and deployment, while performing data quality validation across application workflows.
- Collaborated with UI/UX and backend teams within a micro frontend architecture to convert wireframes into pixel-perfect pages, debug production defects, and validate API contracts.
- Configured Webpack for module bundling and optimized builds; used Bitbucket, Git, and JIRA for version control and task tracking.
- Reviewed API response schemas and worked with backend teams to ensure data contracts stayed consistent across Python/FastAPI services and the React frontend.
- Monitored application and pipeline performance, identifying and resolving issues in data workflows and deployment processes.
- Participated in Agile ceremonies (sprint planning, stand-ups, retrospectives) and contributed to estimation and task breakdown for feature delivery.

Associate Software Engineer — 2024 – 2025

Tech Mahindra, Chennai | Client: Roche

- Developed responsive web application features using React.js, JavaScript, HTML5, and CSS3, focused on reusable and modular UI components.
- Integrated RESTful APIs and implemented dynamic UI components to meet business requirements.
- Wrote SQL queries to support data validation and reporting needs for application features.
- Participated in code reviews and followed coding standards to maintain consistency and quality across the codebase.
- Collaborated with cross-functional teams in an Agile environment using Git and JIRA; assisted in bug fixing, testing, and production support.

Associate Software Engineer — Intern **Mar 2023 – Jun 2023**
Larsen & Toubro Infotech (LTI), Chennai

- Assisted in developing web page components using HTML, CSS, and JavaScript under senior developer guidance.
- Supported UI enhancements and bug fixes; gained exposure to SQL, SDLC, and Agile methodologies.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services
- Complete Web Design Certification & JavaScript Algorithms and Data Structures — Udemy
- SQL — Structured Query Language Fundamentals

EDUCATION

B.E. — Electronics & Communication Engineering **2019 – 2023**
Sri Sairam Institute of Technology, Chennai | CGPA: 8.2
